

AYAN ALEEM

Artificial Intelligence Student

0303-5720848 • ayanaleem1992@gmail.com • Attock, Pakistan • linkedin.com/in/ayan-aleem

PROFILE SUMMARY

BS Artificial Intelligence student at COMSATS University Islamabad with hands-on internship experience in IT support and remote industry roles, plus practical expertise in React Native, Java, Python, Machine Learning, and Computer Vision. Skilled in developing mobile applications, building machine learning models, and solving complex programming challenges. Passionate about AI and software development with a track record of delivering projects across healthcare AI, mobile apps, and predictive modelling.

EDUCATION

BS Artificial Intelligence — 6th Semester (Ongoing)

2023 – 2027 Expected

COMSATS University Islamabad, Attock Campus

HSSC – Pre-Engineering

Graduated 2022

Army Public College, Attock | FBISE

SSC – Science Group

Noble Grammar Public Secondary School | FBISE

EXPERIENCE

IT Intern

Carrefour, Giga Mall Islamabad

On-site Internship

- Assisted in day-to-day IT operations and infrastructure maintenance within a large retail environment.
- Provided technical support to staff, resolving hardware and software issues in a timely manner.
- Gained practical exposure to enterprise-level IT systems and workplace IT protocols.

Remote IT Intern

Fincon Services

Remote Internship

- Completed assigned IT tasks remotely, demonstrating self-management and professional discipline.
- Gained valuable industry exposure to IT operations and service-based work in a remote setting.
- Collaborated with team members virtually to meet deadlines and deliver quality work.

RELEVANT COURSEWORK

Data Structures & Algorithms • Machine Learning • Computer Vision • Artificial Intelligence • Database Systems • Mobile Application Development • Computer Networks

PROJECTS

Leukemia Detection Using Vision Transformers

Ongoing — Final Year Project

Python | ViT | TensorFlow | Computer Vision

- Built a deep learning medical image classification system using Vision Transformer (ViT) architecture.
- Preprocessed blood smear images and classified cases as leukemia vs. non-leukemia.
- Applied self-attention mechanisms for improved feature extraction and classification accuracy.
- Assessed model performance using accuracy, precision, recall, and F1-score metrics.

Weather App

React Native | Expo

Mobile Application Development

- Developed a cross-platform mobile weather application using React Native and Expo.
- Integrated a live weather API for real-time forecast data and location-based conditions.
- Implemented AsyncStorage to persist recent searches across sessions.
- Designed multi-screen UX using Drawer and Stack Navigation.

House Price Prediction

Python | Scikit-Learn | Machine Learning

Academic Project

- Built and compared regression models (Linear Regression, Random Forest) to predict housing prices.
- Performed data preprocessing, feature engineering, and outlier removal on real estate datasets.
- Evaluated model accuracy using RMSE, MAE, and R^2 metrics.

Library Management System

Java | OOP

Academic Project

- Developed a console-based library system applying OOP principles: inheritance, polymorphism, encapsulation.
- Implemented book issue/return tracking, member management, and automated fine calculation.

Thrift Shoe App

Mobile Application Development

Personal Project

- Built a mobile marketplace app for buying and selling second-hand shoes.
- Implemented product listing, search functionality, and user authentication.

CERTIFICATIONS

Frontend Developer (React)

HackerRank — 2026

Verified competency certification in React development issued by HackerRank.

App Store Listing Certificate

Google Play Academy — 2026

Official Google Play Academy certification covering app store listing best practices and optimisation.

TECHNICAL SKILLS

Languages: Python • Java • JavaScript

Frontend / Mobile: React • React Native • HTML • CSS • Expo

AI & Machine Learning: Machine Learning • Computer Vision • TensorFlow • Scikit-Learn

Tools & Platforms: Git • GitHub • VS Code • Android Studio • MS Office

CS Fundamentals: Data Structures & Algorithms • OOP • Computer Networks

SOFT SKILLS

Teamwork • Time Management • Leadership • Effective Communication • Critical Thinking

ACHIEVEMENTS

- Certified Frontend Developer (React) by HackerRank (2026).
- Certified by Google Play Academy in App Store Listing best practices (2026).
- Completed internships at Carrefour (on-site) and Fincon Services (remote), gaining real industry IT experience.
- Delivered 5+ software projects spanning healthcare AI, mobile development, and predictive analytics.
